

Out and about in your city

Do you have medieval places in your city or municipality?
Work out a walking route through these places:

- Discover which buildings are still standing today. In which locations should we use our imagination?
- Make sure that the walk does not just take the walkers along street names.
- Introduce people that lived there and events that happened on the spot or in the surroundings.
- Are there natural areas nearby that date back to the Middle Ages? What does the landscape consist of?
- Use [google my maps](#) to plan your walk. Here you will find the [how to](#).
